APPLICATION

First Communications, LLC ("First Communications") and Acceris Management and Acquisition LLC ("Acceris") (together, "Applicants"), by their counsel, request that the South Carolina Public Service Commission ("Commission"), pursuant to S.C. Code §58-9-310, grant them the authority necessary to consummate a transaction involving the transfer of certain assets of Acceris to First Communications. Pursuant to the terms of an Asset Purchase Agreement ("Agreement") dated July 11, 2006, between First Communications and Acceris, First Communications will acquire certain assets of Acceris relating to its large business customer enterprise business ("Business"), including various equipment and Business customers; however, First Communications will not acquire any of Acceris's telecommunications authorizations. Thus, as First Communications is not currently authorized to provide telecommunications service

in South Carolina, it must obtain an authorization from the Commission to provide service in South Carolina.

Accordingly, pursuant to Code of Laws of South Carolina Section 58-9-280 and the South Carolina Code of Regulations Section 103-600, *et seq.*, and all other relevant Rules and Regulations of the Commission, First Communications respectfully requests that the Commission grant it a Certificate of Public Convenience and Necessity to provide resold interexchange telecommunications services throughout the State of South Carolina. Applicants further request, pursuant to S.C. Code Ann. §58-9-310, that the Commission approve the transfer of assets, including customers, from Acceris to First Communications.

After consummation of the transactions, Acceris will retain its authorization to provide telecommunications services in South Carolina in order to provide service to its customers not related to the Business. The assets and customers related to the Business will be acquired by First Communications. These customers will not experience any loss or impairment of service. They will continue to receive their existing services at the same rates, terms and conditions as at present. Future changes in the rates, terms and conditions of service will be made consistent with Commission requirements. The only material change will be in the customers' service provider. Notice of the change will be provided to customers in accordance with Commission and federal rules.

In support of this Application, the Applicants provide the following information:

III. DESCRIPTION OF ASSET TRANSFER

First Communications and Acceris have reached an Agreement providing for First Communications' acquisition of certain assets of Acceris relating to the Business, including personal property such as equipment and switches, customer contracts and working capital (including accounts receivable), but not including any federal or state telecommunications authorizations. After consummation of the transactions, First Communications will provide telecommunication services to the Acceris customers directly pursuant to its own telecommunications authorizations.

The proposed transfer of customers to First Communications will have no adverse impact on customers. The Acceris customers will continue to receive their existing services at the same rates, terms and conditions that they have prior to the transfer and any future changes in the rates, terms and conditions of service will be made consistent with Commission requirements. To ensure a seamless transition and avoid customer confusion or inconvenience, First Communications will provide advance written notice to the affected customers at least thirty (30) days prior to the transfer, explaining the change in service provider in accordance with applicable Federal Communications Commission and Commission requirements for changing a customer's presubscribed carrier. A copy of the notification letter that will be sent to the affected Business customers is available upon the request of the Commission.

IV. QUALIFICATIONS OF FIRST COMMUNICATIONS

By this Application, First Communications seeks authority to provide a full array of resold interLATA and intraLATA interexchange telecommunications services to business and residential customers in the State of South Carolina. Specifically, First Communications seeks authority to provide basic "1+" long distance services, otherwise known as Message Telecommunications Service ("MTS"), travel card services, and toll-free services. At a later date, First Communications may expand its long distance offerings, to include a broader range of interexchange products and services, and may, as economic conditions permit, seek authority to provide local exchange services. First Communications seeks authority to provide interexchange telecommunications services on a statewide basis. First Communications will not provide operator assisted services and plans to provide its service on a resale basis. At this time, First Communications has no plans to construct outside plant or loop distribution facilities or any other facilities.

As demonstrated below, First Communications is well-qualified managerially, technically and financially to provide the competitive interexchange telecommunications services for which authority is requested in this Application.

First Communications' management team includes individuals with substantive experience in successfully developing and operating telecommunications business. Consequentially, the company has the adequate internal technical resources to support its South Carolina operations. This expertise in the telecommunications industry makes First's management team well-qualified to operate its interexchange operations in South Carolina. Specific details of the business and technical experience of First Communications' management team are attached as *Exhibit C*, which contains biographies and a brief description of the business experiences of key management personnel who will be responsible for First Communications' telecommunications services in South Carolina and throughout the United States.

As is evident from the information contained in *Exhibit C*, First Communications is managed by persons with substantial technical expertise in operating telecommunications networks. This wealth of expertise will enable First Communications to provide its interexchange customers with advanced, state-of-the-art technology, for its telecommunications services.

First Communications has attached hereto as *Exhibit D* its audited balance sheets as of December 31, 2005 and 2004, and statements of income and cash flows for the years ended December 31, 2005, 2004 and 2003, filed under seal. First Communications is a privately-held company. Accordingly, its financial statements are not public information. As a privately-held company, it does not issue annual reports or submit any financial filings with the Securities and Exchange Commission. First Communications respectfully requests that its financial statements disclosed in connection with this Application be filed under seal, solely for the purpose of the Commission's and the ORS' review.

First Communications plans to resell the services of Qwest, MCI and Global Crossing to provide interexchange service. However, the company may in the future resell the interexchange telecommunications services of other carriers appropriately authorized by the Commission. By offering service on a purely resale basis, First Communications reduces its need for significant capital expenditures.

First Communications will bill all of its end-user customers directly. The Company does not intend to utilize a billing agent in issuing bills for services rendered to end users. First Communications will not use a "billing clearinghouse" or other outside entity to issue bills to its customers. All bills sent to end-user customers will bear the company's name and provide a toll-free number for customer inquiries and complaints. First Communications has a toll free number available for its customers to contact the company with billing and service related issues: 1-800-274-1015.

Customers may contact the company with billing related issues between the hours of 8AM - 10PM EST (Monday to Friday) and 8AM – 5PM EST (Saturday and Sunday) by using the toll free number noted above or by writing to First Communications, LLC, 3340 W. Market Street, Akron, OH 44333.

V. TARIFF

Appended hereto as *Exhibit E*, please find the initial tariff of First Communications. This tariff includes the same Business services, rates, terms and conditions as the existing Acceris tariff. Thus, the Business customers being transferred from Acceris to First Communications will not experience any change in their telecommunications services. The only change will be the new service provider: First Communications.

VI. REQUESTED REGULATORY TREATMENT

First Communications hereby agrees to abide by all applicable statutes and all applicable Orders, Rules, and regulations entered and adopted by the Commission. Additionally, as a competitive provider of telecommunications services in South Carolina, First Communications respectfully requests that it be subject to the same streamlined regulatory treatment applicable to other competitive carriers. First Communications respectfully requests the following waivers:

Applicant requests, pursuant to Rule 103-610, that it be allowed to keep all records required under the rules at its principal offices.

Applicant requests that it be exempt from any record keeping rules or regulations that might require a carrier to maintain its books and records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed by the Federal Communications Commission as a means of regulating telecommunications companies subject to rate base regulation. As a competitive carrier, Applicant will not be subject to rate base regulation and therefore requests Commission of approval for Applicant to maintain its books in accordance with Generally Accepted Accounting Principles.

Applicant requests that its interexchange business service offerings be regulated pursuant to the procedures described and set forth in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C, as modified by Order No. 2001-997 in Docket No. 2000-407-C. Specifically, Applicant requests that the Commission regulate its business services in the same manner as the Commission regulates those of AT&T Communications of the Southern States, Inc. ("AT&T"). Further, Applicant requests that the Commission: a) remove the maximum rate tariff requirements for Pac-West's business services and private line, and customer network-type offerings; b) presume that Applicant's tariff filings for these services be valid upon filing.

However, if the Commission institutes an investigation of a particular filing within seven (7) days, the tariff filing will be suspended until further order of the Commission; and c) grant Applicant the same treatment as AT&T in connection with any future relaxation of the Commission's reporting requirements.

VII. PUBLIC INTEREST

A decision by the Commission to grant First Communications authority to provide resold interexchange telecommunications services is in the public interest. The Company is well qualified to operate as such a service provider in South Carolina. Consumers of telecommunications services in South Carolina will receive the benefits of downward pressure on prices, increased choice, improved quality of service and customer responsiveness, innovative service offerings, and access to increasingly advanced telecommunications technology. The market incentives for new and existing providers of telecommunications services will be improved through an increase in the diversity of suppliers and competition within the interexchange telecommunications market. Granting First Communications' Application would enhance the development of competition in the interexchange market and provide the consumers of South Carolina with all of the benefits described above.

The transfer of assets to First Communications will serve the public interest. Acceris has determined that its operations with respect to the Business is no longer consistent with its long term interests. First Communications is a strong company that will continue to provide high quality services to the Acceris customers. First Communications' purchase of the Acceris assets related to the Business will strengthen First Communications, enable it to expand and better ensure that it remains a viable long-term competitor in the telecommunications marketplace.

At the same time, the proposed transfer of assets does not present any anti-competitive issues. The Applicants emphasize that, following the transfer, the former Acceris customers will

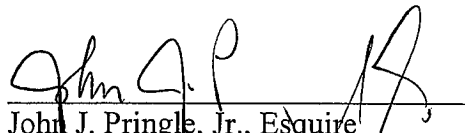

continue to receive services from an experienced and qualified carrier, which services will be consistent with the quality of services currently provided by Acceris. Acceris primarily resells local and long distance services to residential and business customers and First Communications has extensive experience in providing these services. The Applicants anticipate that customers will experience a seamless transition of service provider. Further, these customers will be sufficiently notified of the transaction and their rights.

In addition, Acceris' exit from the Business does not present any competitive concerns. In the geographic markets in which the operations of First Communications and Acceris overlap, the market share of First Communications post-close in the local service market will be less than 5 percent. In the geographic markets in which the operations of First Communications and Acceris do not overlap, First Communications will simply step into the shoes of Acceris with respect to market share. The Applicants note that there are a number of other carriers operating in each market, including the incumbent carrier, which in each market controls a substantial market share.

In sum, grant of this Application will serve the public interest by strengthening the competitive position of First Communications without negative impact to either Acceris customers or competition in the markets in which Acceris operates.

WHEREFORE, the Applicants respectfully request that the Commission (i) grant First Communications, LLC a Certificate of Public Convenience and Necessity to provide competitive resold interexchange telecommunications services in the State of South Carolina and (ii) approve the transfer of assets, including customers, of Acceris Acquisition and Management LLC to First Communications, LLC, and whatever further relief that the Commission deems is appropriate to consummation the transactions describer herein.

TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

This tariff contains the regulations and rates applicable to intrastate interexchange telecommunications services provided by the Company for telecommunications between points within the State of South Carolina. Services are furnished subject to the availability of necessary facilities, equipment and/or billing arrangements with the DUC and/or LEC, and subject to the terms and conditions of this tariff in compliance with limitations set forth in the Commission's rules. Necessary facilities and equipment may include, but are not limited to, facilities or equipment to be provided by the Company, connecting carriers, underlying carriers, owners and operators of transmission capacity leased to the Company or the LEC. The Company's services are provided on a statewide basis and are not intended to be limited geographically, however, all Switched Access services are only available in equal access areas. The Company offers service to all those who desire to purchase service from the Company consistent with all of the provisions of this tariff. Except for 101XXXX Access Service, Customers interested in the Company's services shall file a service application with the Company which fully identifies the Customer, the services requested and other information requested by the Company. The Company reserves the right to examine the credit record and check the references of all applicants and Customers prior to accepting the service order. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the Customer, to allow connection of a Customer's location to a service provided by the Company. The Customer shall be responsible for all charges due for such service arrangement.

In the event Company is required to initiate legal proceedings to collect any amounts due to Company for regulated or non-regulated services, equipment or facilities, or to enforce any judgment obtained against a Customer, or for the enforcement of any other provision of this tariff or applicable law, Customer shall, in addition to all amounts due, be liable to Company for all reasonable costs incurred by Company in such proceedings and enforcement actions, including reasonable attorneys' fees, collection agency fees or payments, and court costs. In any such proceeding, the amount of collection costs, including attorneys' fees, due to the Company, will be determined by the court.

If the Customer chooses to pay by credit card, the Customer agrees to the rules governing that payment option, including applicable limits on the amount of Service that may be used before making a payment. No additional notice or consent is required before the Company invoices your credit card or debits the account for all amounts due to the Company. Customer will be notified of any limits that are imposed. If such limits are imposed, Customer may be required to pay for Service with a valid major credit card. The Company may stop offering this option at any time upon notice to the Customer. The Company reserves the right to authorize a credit card payment before the end of the billing cycle if the customer shows unusual use of service, including, without limitation, excessive use of service, abnormal calling patterns or high international termination.

SECTION 2 – RULES AND REGULATIONS (cont'd)**2.11 Taxes**

All federal, state and local taxes, assessments, surcharges, or fees, including sales taxes, use taxes, and municipal utilities taxes, are billed as separate line items and are not included in the rates quoted herein.

2.12 Late Charge

A one-time late fee of 1.5% monthly or the amount otherwise authorized by law, whichever is lower, may be added to any unpaid balance brought forward from the previous month's billing date.

2.13 Returned Check Charge

A fee will be charged whenever a check or draft presented for payment for service is not accepted by the institution on which it is written, however, the charge may equal but not exceed the rate allowed by S.C. Code Annotated Section 34-11-70.

2.14 Marketing Practices and Marketing Guidelines

As a telephone utility under the regulation of the Public Service Commission of South Carolina, the Company does hereby assert and affirm that as a provider of intrastate telecommunications service, the Company will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and the Company will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, the Company will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. The Company understands that violation of this provision could result in a rule to Show Cause as to the withdrawal of its certification to complete intrastate telecommunications traffic within the State of South Carolina.

SECTION 3 – DESCRIPTION OF SERVICE**3.1 Computation of Charges**

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and/or time of day of the call. The variable measured charge is specified as a rate per minute which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this tariff. For all calls, fractions of an increment are rounded up to the next whole increment. For example, a call with a one (1) minute increment lasting 35 seconds will be rounded to one (1) minute. Calls with charges that include a fraction of a cent .5 or greater will be rounded to the next highest cent. For example, a Customer making a call with a computed charge of \$1.434 will be charged \$1.43 and a Customer making a call with a computed charge of \$1.435 will be charged \$1.44.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

SECTION 3 – DESCRIPTION OF SERVICE (cont'd)

- 3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.
- 3.1.4 If the Customer uses a calling plan with a monthly recurring charge, that monthly charge is charged for every billing or calendar month in which a customer uses the service as defined by placing a call from a working telephone number.

3.2 Customer Complaints and/or Billing Disputes

Customer inquiries or complaints regarding service or accounting may be made in writing or by telephone to the Company at:

3340 W. Market St.

Where overbilling of a subscriber occurs, due either to Company or subscriber error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount overbilled; provided, however, in the event that the Company has willfully overcharged any Customer, the Company shall refund the difference, plus interest, as prescribed by the Commission.
